INSTRUCTIONAL MATERIALS

The Board of Education shall ensure that the necessary and appropriate educational materials are available for use in the District schools. The materials should be reviewed in a periodic fashion to ensure validity and compatibility with the curriculum. This responsibility will be facilitated by means of the curriculum review cycle noted in Policy 4200, Curriculum Development.

Criticism of materials used should be submitted, in writing, to the Superintendent of Schools on the appropriate form (see 4510-E). Moreover, curriculum complaints regarding instructional materials shall adhere to the appropriate regulations enacted pursuant to Policy 1420, Complaints About Curricula & Instructional Materials. Additionally, the Board will be informed of the criticism by the Superintendent, who shall appoint a faculty review committee and forward the complaint. The materials at issue shall not be removed from the District schools pending a written decision from the committee.

The person(s) lodging the complaint will be invited to appear before the faculty review committee to express their concerns. Appeal from the decision of the faculty review committee may be filed with the Superintendent to the Board for purposes of finality.
